Student Assembly

HOW TO BE AWESOME4LIFE!!!

I believe everyone wants to have an AWESOME life. But many have no idea the essential steps to make that happen. We become a victim of our circumstances and fail to take responsibility for our actions toward our true hearts desire. I come from a broken home, a family of alcoholism, neglect and abuse. I am the first person in my family to graduate from college and overcoming these challenges was extremely difficult. But with the help of many educators and mentors I was able to let go of past, overcome my challenges, and become inspired to go to college and become an educator. Now I am a motivational speaker, and focus my attention daily on my goals and finally empower others to do the same in their own life. Life can be difficult at best and nothing worth having comes easy. But we all really can be AWESOME4LIFE!!
