***FIRE* UP EDUCATORS!**

Being in the education field is a calling, and not for the faint of heart. You have to be all in, all day, every day! But we sometimes get bogged down in the demands of achieving test scores, winning ball games, and the day-to-day challenges that students, teachers, counselors, administrators and parents face to just get along with each other. The goal of any school should not be just academic success, but building relationships that go beyond the classroom and equal a lifetime of personal growth and cherished memories. When educators and staff are truly engaged and love and respect their students, peers and the parents they serve, they can move mountains together and miracles occur. It takes just one person to change a student's life. But, what if we have a whole district of dedicated life changers where the culture and climate is one of enthusiasm, commitment and connection? We can start a FIRE that can't be burned out! When we get back to what **FUELS** our FIRE and remember WHY we came into the education field in the first place and we **INVENTORY** our strengths, **REFRAME** our challenges, **ENERGIZE** our body, mind and spirit, **DECLARE** our mission for the year, **UNDERSTAND** how to connect with each other and **PRESENT** our best selves every day, then we will have a FIRED UP experience and fan the flame onto everyone in our path! Now that's **FIRED UP** for education!

Attendees will learn:

- How to get back on Purpose and Remember “WHY” you entered in the education field.
